

# Spring Flora May 16 - 18

## Participant's details

This course is designed to be in the field for most hours so please pack for insects, rain, wind, sun, heat, cold...Minnesota.

You also need to bring your own bedroll or sleeping bag, toiletries, and towels.

The weekend will sample a variety of habitats and species using the book – Spring Flora by Morely, a taxonomic key. Feel free to bring your own field guides if you like.

It is suggested that you bring

- Notebook
- Camera
- Pen and Pencil
- Art material if you like (option)
- Magnifier for observing details of flowers
